

Connecting to the Mobile E-Catalog

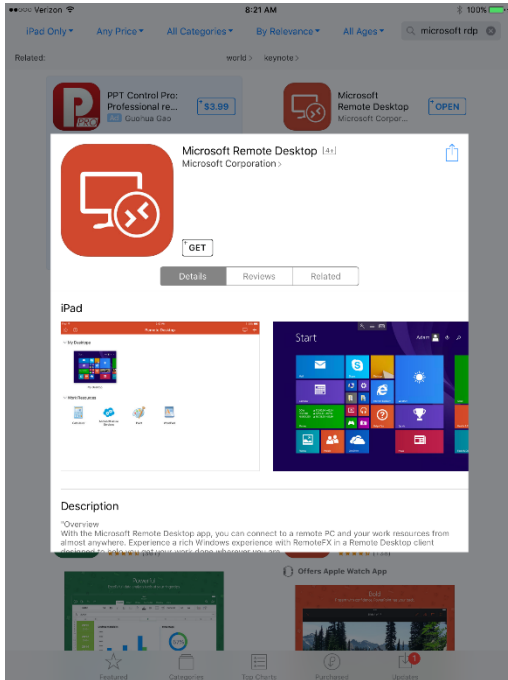

Heritage Millwork

An RDP client is required for mobile users using either Apple or Android. Microsoft Remote Desktop is the recommended RDP - it is a free client application that is available for most mobile devices. An RDP client should also be used when connecting from an Apple or Linux desktop. Microsoft Remote Desktop is available for Apple users and Linux users should use Remmina or FreeRDP.

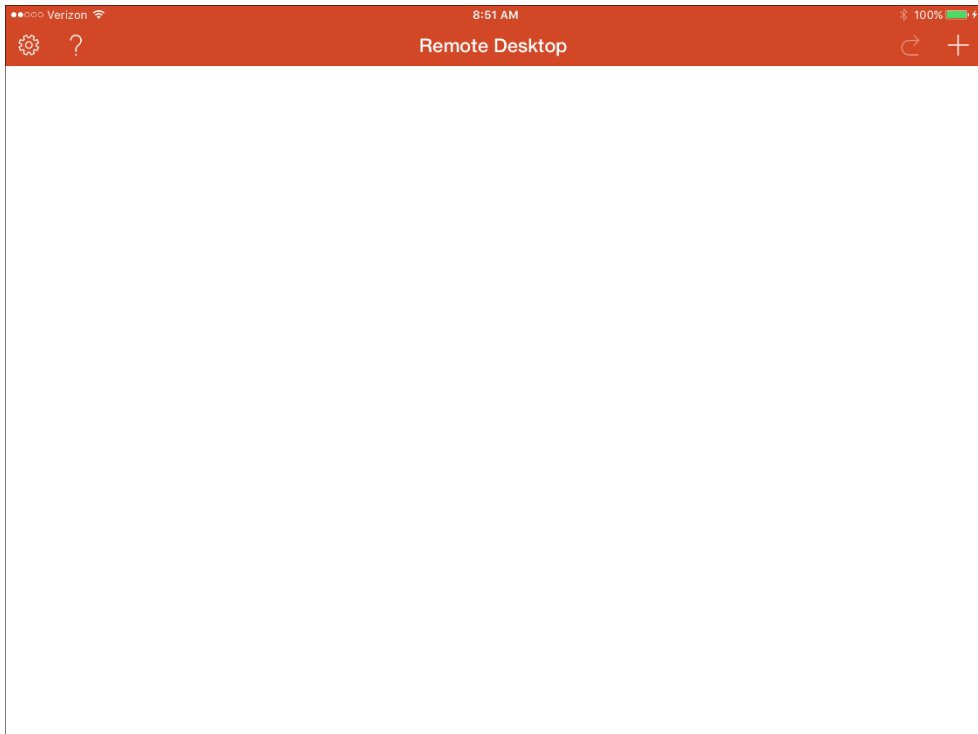

Microsoft Remote Desktop Installation and Setup

Install the application on the mobile device and setup the connection as shown in the following images. Depending on the device and operating system, the setup page may have a slightly different appearance.

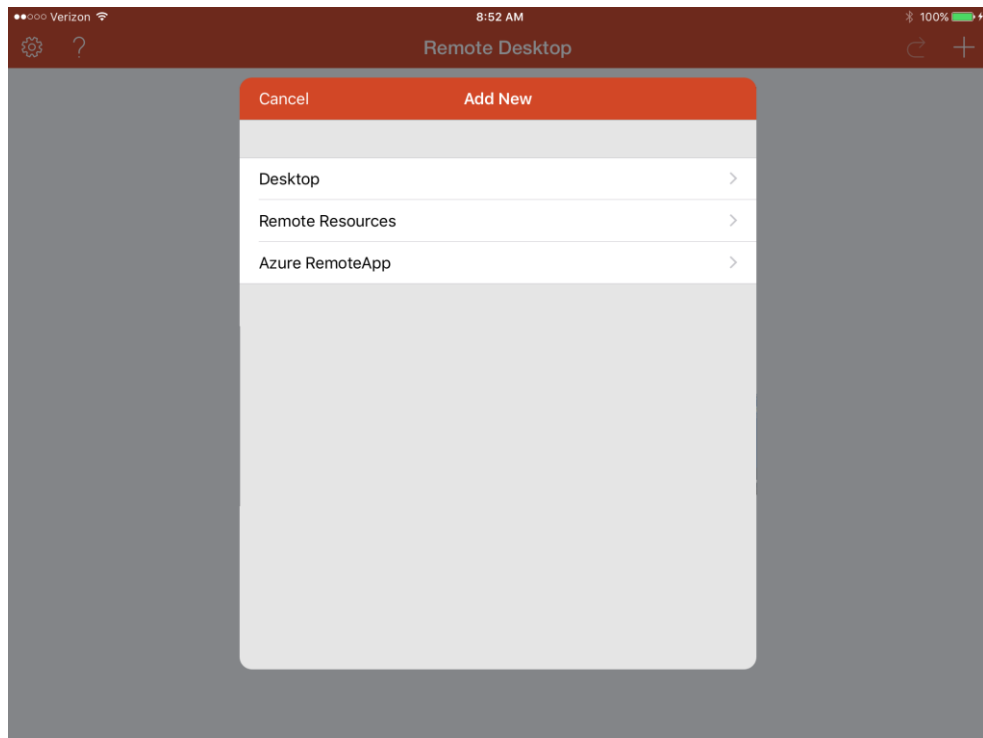

Begin by installing Microsoft Remote Desktop from the App Store

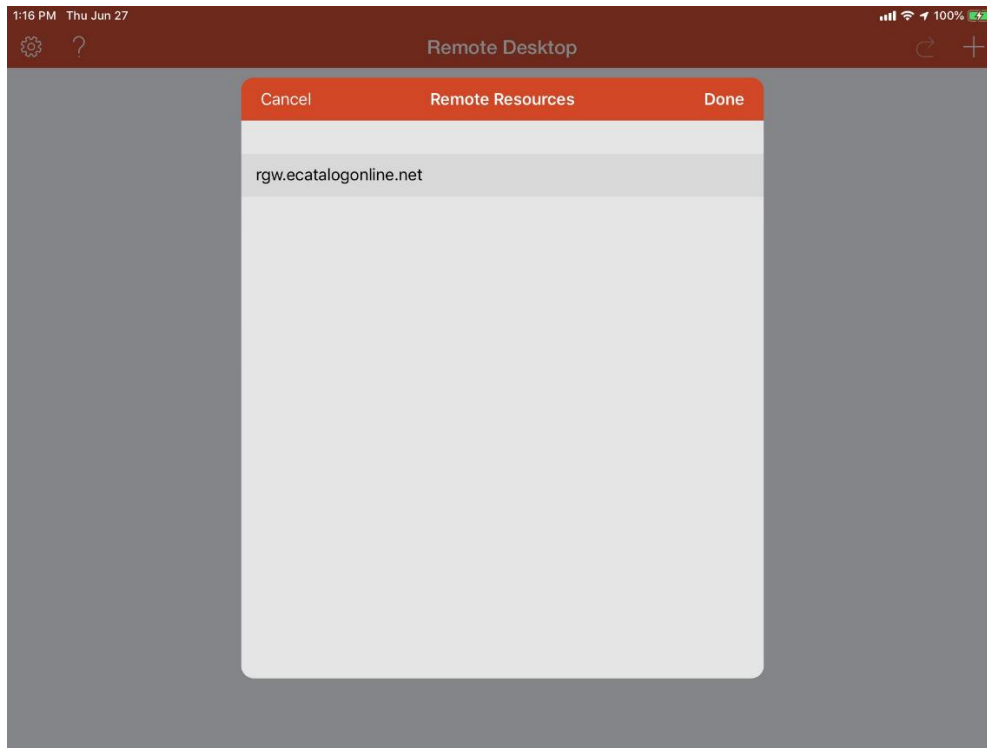

Once the download is complete, launch the app and select the + button on top toolbar to configure a new Remote Desktop

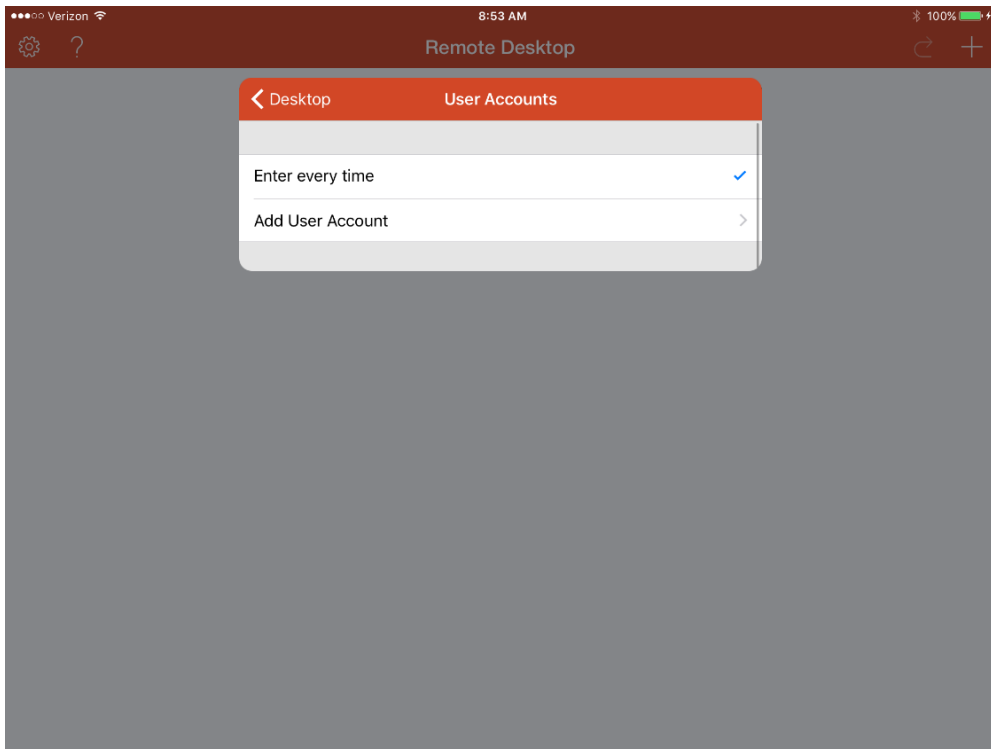

Select Remote Resources

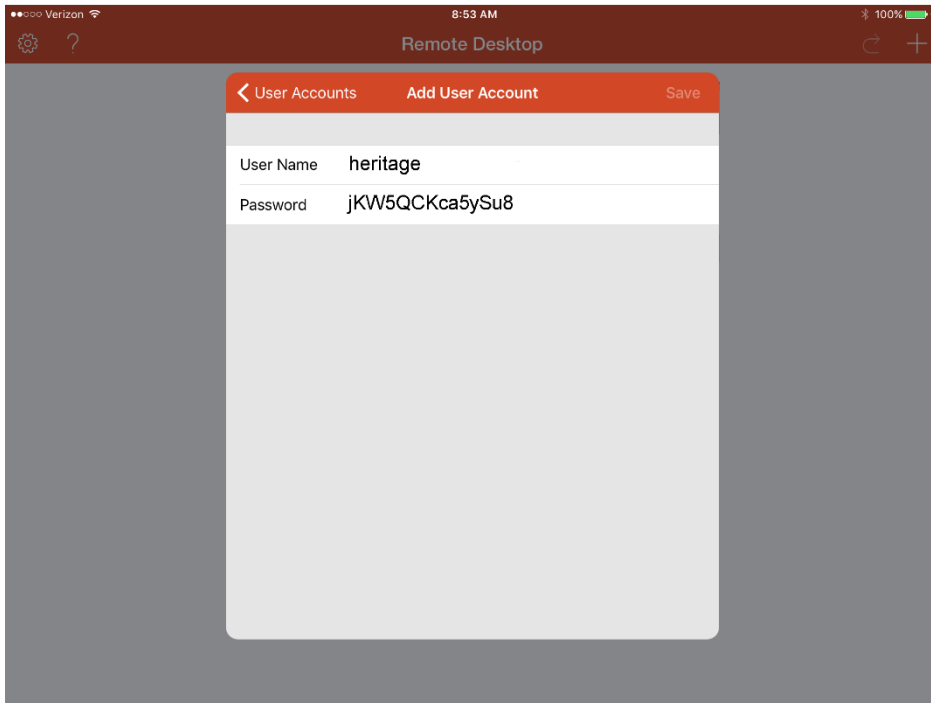

Enter rgw.ecatalogonline.net in the PC Name Field and select User Account

Select Add User Account

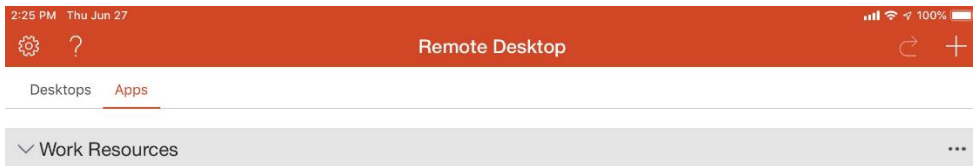

Enter 'heritage' in the User Name field and 'jKW5QCKca5ySu8" in the Password field and hit Save. Return to the Main form and launch the E-Catalog

The screenshot shows a mobile application interface with a dark red header bar. The header contains the text "Remote Desktop" in the center, a gear icon on the left, and a question mark icon on the right. Below the header, there is a white modal form titled "Add User Account". The form has a red header bar with a back arrow, the text "User Accounts", and a "Save" button. The form contains two input fields: "User Name" with the value "heritage" and "Password" with the value "jKW5QCKca5ySu8".

Field	Value
User Name	heritage
Password	jKW5QCKca5ySu8

Go to the Apps page and select your E-Catalog to launch
